

Afforestation and regeneration of broad-leaved stands

*Kaspars Liepiņš
Dr. silv. LFRI Silava*

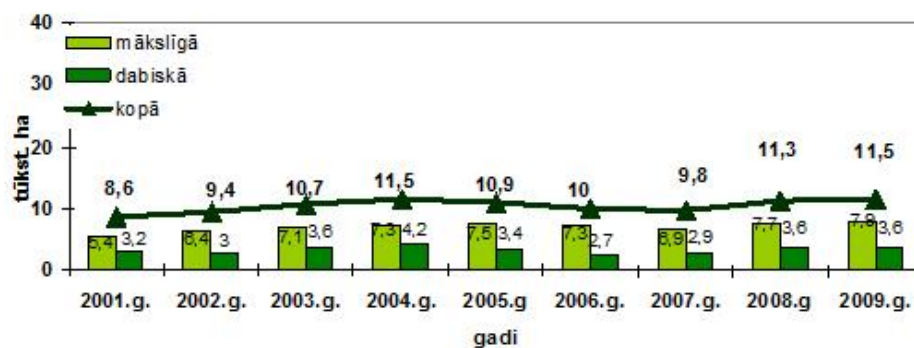

Composition of species (%)

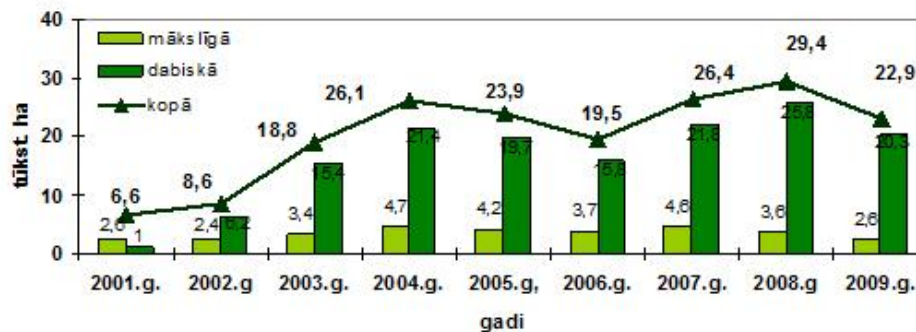

Forest regeneration (2009)

Meža atjaunošana 2001.-2009.g. Valsts mežos

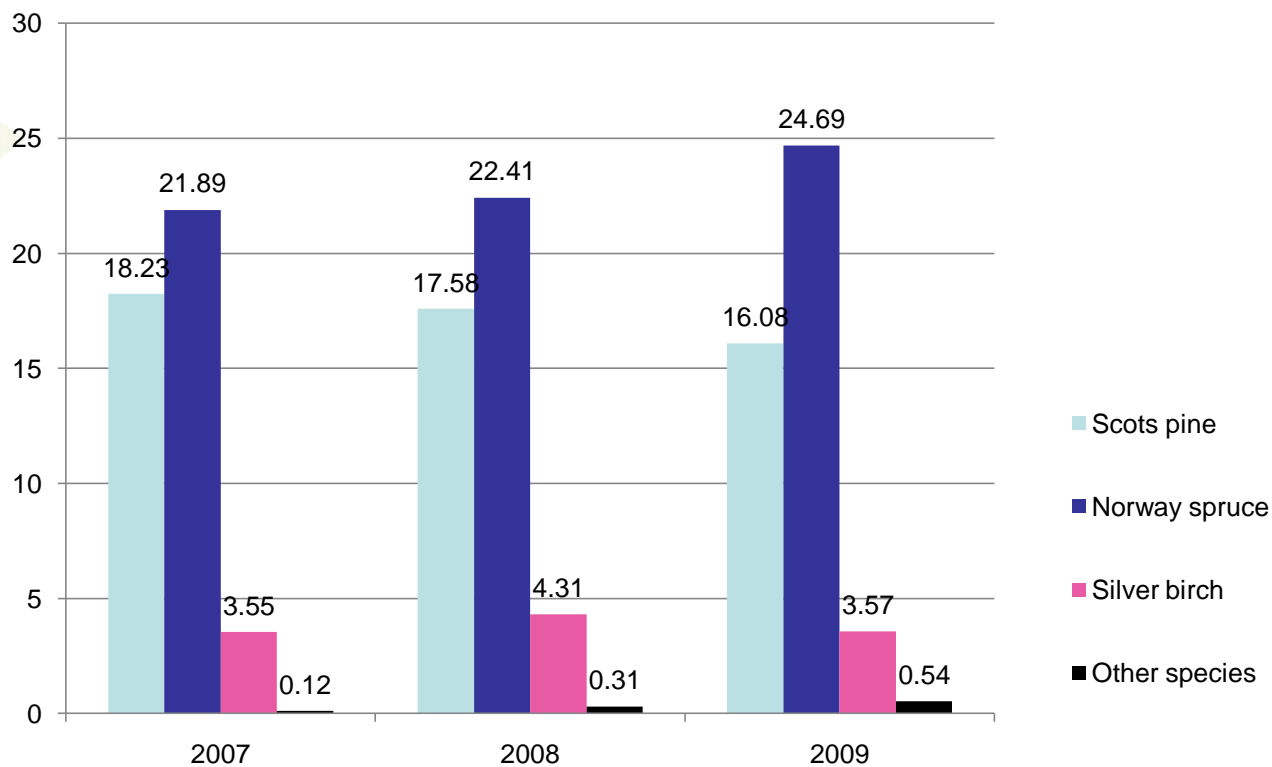

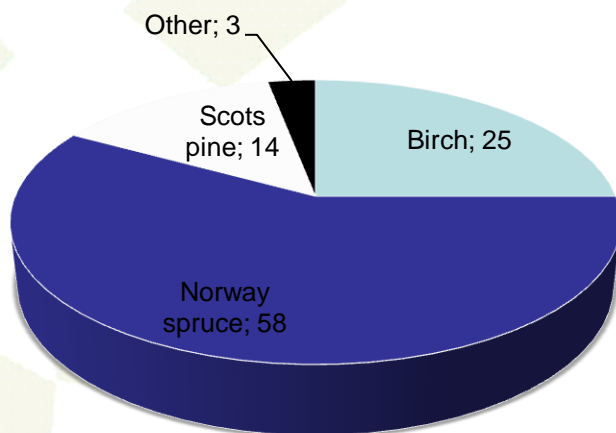

Meža atjaunošana 2001.-2009.g. pārējo īpašnieku mežos

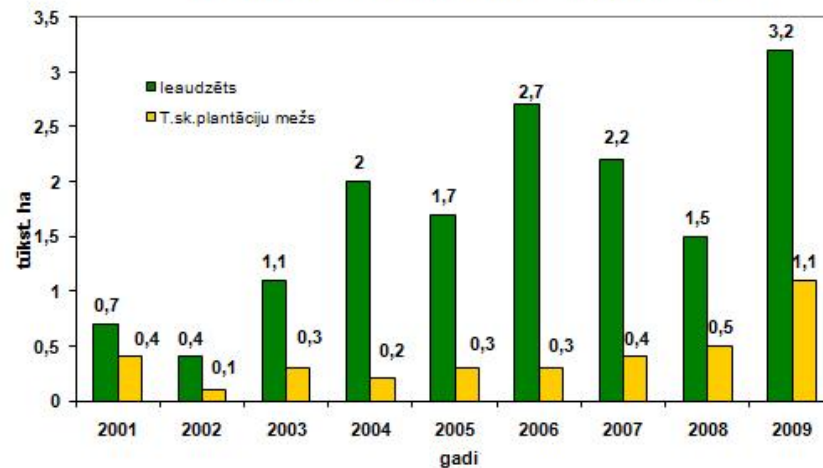

Production of planting stock (millions)

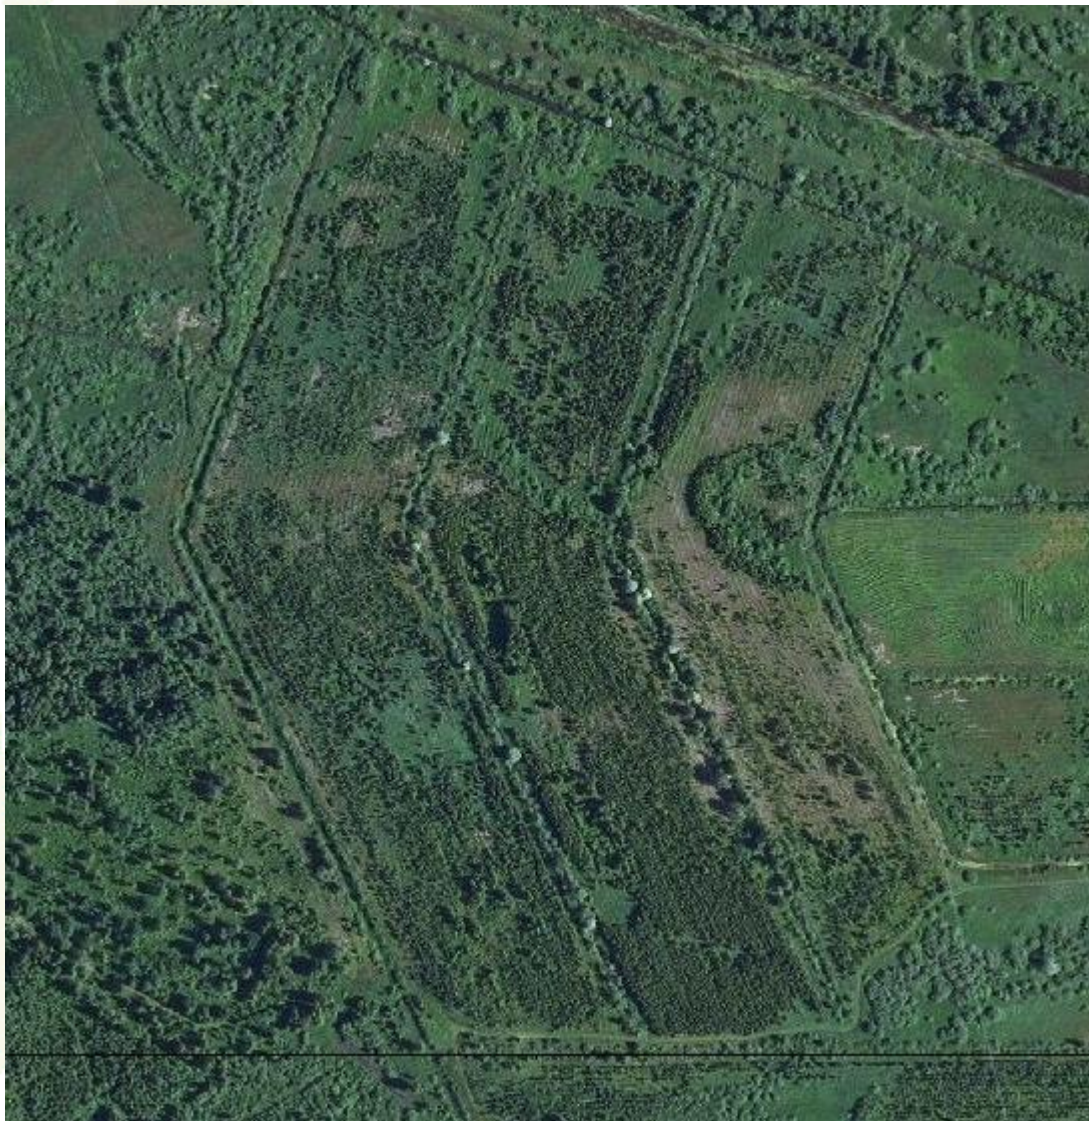

Afforestation (2009)

Meža ieaudzēšana Latvijā 2001.-2009.g., tūkst. ha

EIROPAS REĢIONĀLĀS
ATTĪSTĪBAS FONDS

- problematic site;
- small container seedlings;
- insufficient weed control;

Establishment of birch plantations on former farmland

- soil preparation;
- planting stock quality;
- management (weed control, pruning, thinnings);
- early growth;
- environmental impact (carbon stock).
